## Case of McNulty, The Astorino.

CLARK.—The pilot boat E. K. Collins was chartered some weeks since by Mr. Matanzas with officers G. F. Hayes and Mal-ncha Fallon, late keeper of the City Prison, in pursuit of Marvin McNulty, the confidential clerk of C. Vyse & Sons, merchants of 139 William-st, who absconded in the bark Ann Louisa, with property to a large amount, obtained on forged notes, &c. The pilot boat arrived a day after the bark, when Messrs. Hays & Fallon applied to the American Consul for advice and aid in the matter, there being no treaty in exist-ence by which the accused could be brought back to the United States. An arrangement was, however, made with McNulty to give up the property of his employer. According to the statement of the accused, it appeared that the funds he realized from the forgeries, &c., he invested in stock, and took the securities with him, these amounting to about \$40,000, which he delivered over to the officer for the benefit of Vyse & Sons, who would have returned with the party who went out after him, provided no criminal action would be instituted against him.—N. Y. Star.

Where next will the enterprise and energy of our New York shippers and merchants carry them and what regions of earth and sea will escape their unbounded activity and emulation? It is now stated that Messrs. Howland and Aspinwall, in furtherance of their already extensive operations on the shores of the Pacific, having obtained the government mail contract, are constructing three steamers which are to ply monthly between Panama and Oregon, touching at the prominent ports of California. These steamers are to commence running next winter, in consequence of the loss from this port to Oregon, at the Isthmus.

When these arrangements shall have taken effect the passage from New York to San Francisco, in Upper California, can be made in thirty days, whereas now it occupies about four months. The time consumed in crossing the Isthmus seldom exceeds thirty hours. In connection with the above it is stated that a railroad from Memphis, Tennessee, to the Bay of San Francisco, via Santa Fe, is strongly talked of at Washington—a route asserted to be far surpassing all others, the country being comparatively level throughout. Surely this is the age of progress.—N. Y. True Sun.

**Sword for Gen. Scott.**—The sword to be presented to Gen. Scott, by the State of Louisiana has been finished by Hyde & Goughrich, of New Orleans. It is said to be very richly and beautifully ornamented, and bears the following inscription:  
Presented by the people of the State of Louisiana to Gen. Winfield Scott, for his gallantry and generalship exhibited at the siege of Vera Cruz, in the battles of Cerro Gordo, Contreras, Churubusco, Molino del Rey, Chapultepec, and his final entry into the city of Mexico.

**LASSES and HONEY.**—At the Clay festival in Philadelphia, one gave, as a toast, "Here's a health to all good lasses." It is perhaps better, than vinegar to call them lasses but they prefer to be called honey.—When you call them lasses, it is a sort of allusion to the cane from which molasses comes, and from that to the broomstick is rather too natural.

# THE DAILY NEWS.

Newport

MONDAY, APRIL 24, 1848.

BY O. F. JACKSON, ST. THAMES-ST.

Advertisements will please bear in mind that the circulation of the DAILY NEWS is more than DOUBLE that of the Daily Herald, and greater than the combined circulation of the Daily and Weekly Herald. As a proof of this fact, the list of Letters remaining in the Post-Office is advertised in the NEWS, as BY LAW REQUIRED.

## NINE DAYS LATER FROM EUROPE

The Steamer, Sarah Sands arrived at New York on Friday last. She sailed from Liverpool on the 3d inst. and her intelligence is, therefore, nine days later from England and six days later from the continent of Europe.

The Sarah Sands has thus made the passage across the Atlantic in seventeen days. Her last trip to England was made in thirteen days and twenty-two hours.

The news is as important in a political point of view as any that we have received from the old world. It will be seen that revolution is still compulsively progressing; and that the spirit of democracy is unchecked. Other parts of Europe have declared for republicanism, and the symptoms are, that a prodigious war, over all Europe, is not improbable. Already hostilities have been commenced between Holstein and Denmark, and no one can predict where it will end, and threats of war between the Poles and Russians are ripe.

The struggle of the Poles, which there is every reason to believe, has actually commenced, although the account of the bombardment and demolition of Warsaw may be premature, will be the signal for revolt among the Slavonians, Tartars, and Germans of Russia, who will certainly be followed by the Servians. Already the report announced in the Morning Advertiser of Wednesday, of an emeute in St. Petersburg, in which the Emperor was shot in his hat, with a pistol, as he was passing through the streets, has been confirmed by telegraphic communication to Paris. This partial movement may, indeed, be suppressed, but it is not only a prophecy of the feelings of the people.

The accounts of the abdication of the King of Prussia, and the declaration of a republic in that country, are not confirmed by the news received by this arrival.

The Silesian Gazette, under head of Dresden, March 23, says:—We learn from a certain source that there is every reason to hope that Prussia and Austria will restore the Polish provinces.

The news of the arrival of masses of Russian troops on the frontiers of Poland is confirmed. The Cossacks have already commenced their excursions.

France.—There is little domestic news in the Paris papers, but a considerable deal of details regarding the retreat of the Austrians from Milan. It is rumored that England has protested against the violation of treaties by the king of Sardinia. The French government has, it is said, ordered 32,000 men to be encamped at Vienna, in Dauphiny, with a few to events in Italy.

The Grand Duke of Parma has abdicated.

Russia is concentrating large forces on the borders of the Austrian and Prussian Polish provinces; but Schamyl is preparing to attack as soon as Russia is engaged with Poland.

Paris, March 31st.—It is confidently stated to-day that the provisional government is most anxious to make the Bank of France advance it a considerable sum—say about £2,500,000 sterling—on deposit of treasury bills.

The news from the provinces is very bad, serious disturbances are taking place in many towns, and we understand, by a letter from Toulouse, that the southern provinces are not disposed to submit to the dictation of Paris.

The Courier Francaise says:—An extraordinary courier has arrived at the Russian legation of Paris. It is said that he brought despatches of the highest gravity. It appears that the provinces of the south of the empire are in full insurrection. The nobles and the army are at the head of the movement.

News is said to have reached town last evening, from Berlin, of the 27th, as follows:—Warsaw is in open revolution.

The inhabitants arose en masse, and murdered several hundred of the Russians. The troops fled to the fort, and from there bombarded the town. Warsaw is in a state of anarchy. To-morrow the Prussian-Polish army departs from here, at the King's express orders, in a special train. The German journals since received up to the 28th do not confirm this.

The Monitor says:—Letters from the frontiers of Galicia state that a general insurrection in Austrian Poland is imminent. If we are to believe an announcement which appeared in the Brecken Gazette of the 21st, a collision between Russia and Germany is imminent. Quarters have been spoken at Kalish, says this journal, for 680 Russians, and nearly 150,000 Russian troops are assembled on the Polish frontier.

BAVARIA.—A letter from Munich, of March 25, states that the evening before, several young men of very respectable appearance collected on the place Maximilian, and after having made several speeches, burnt the portrait of King Frederick William IV, of Prussia. They then separated without disorder.

WURTEMBERG.—Ulm, March 20.—Great excitement continued to prevail here throughout the day, information having been brought to the government by several couriers that a body of French rabble, with Rerwigh at their head, which report stated amounted to 20,000, had crossed the Rhine, and were committing theft, murder, and incendiarism. The burghers assembled in the afternoon, according to orders, armed with every imaginable weapon.

At half-past six P. M. the governor has received orders from Stuttgart instantly to despatch all the cavalry; the whole of the 2d regiment of infantry is to follow at eight o'clock. The 3d regiment is standing in the barracks ready to start at any moment's notice.

ITALY.—The Florence journals announce that a revolution took place at Modena on the 20th. One hundred young men sallied forth, shouting in favor of the revolutions at Paris and Vienna. The Hungarians refused to act against the people.

Later accounts, however, announces the flight of that Prince. The Austrian Ambassador, Nieumaun, had also fled, and the insurrection was generally successful. On all sides was heard the cry of "Long Live Pius IX." Long live our brothers of Hungary. The only troops that could be got to act against the people were the German dragoons, and they were defeated by stones.

Revolution at Venice.—A Paris correspondent thus alludes to the rumor of a revolution having taken place at Venice:—It is said in Paris to-day that the Austrians have been driven out and a republic proclaimed, or, at all events, a provisional government constituted. The employees had been sent to Trieste. Commandant Martinovich had been killed, and Count Zichy had been captured, and was retained as a hostage.

A letter from Trieste of the 23d, in the Augsburg Gazette, says on this subject:—We learn that Venice has separated herself from Austria, and formed a provisional government. All soldiers and persons employed by the Austrian government are at liberty to take their departure for Trieste. Count Zichy answers with his head for the maintenance of the conditions laid down by the provisional government. The arsenal and the fortresses are in the hands of the Venetians.

Stockholm, March 21.—The tranquillity of our capital has been seriously interrupted during the last few days. On the 18th, towards evening, an immense mob, which had been summoned several days previously by placards, proceeded at the close of a reform banquet, with the members of which they, however, appear to have no connection, to the Brunkeberg market, and entered the city, where they commenced breaking the windows. The military who were called out to restore order, were received with volleys of stones, and they were at last forced, in self-defence, after several soldiers had been seriously wounded, to fire, by which many of the people were killed and wounded. The king himself was obliged to ride between the rabble, and about one o'clock in the morning peace was comparatively restored.

IRELAND.—Matters are assuming a threatening shape in Ireland. The Republicans are making active preparations for a conflict with the government. Rifle clubs are being formed, and the manufacture of arms is proceeding so vigorously, that every

other kind of blacksmith work is suspended. The government is pouring in troops, and war steamers are ordered to Dublin. It was likewise in contemplation to extend the coercion act to that part of the country. Recent meetings have been held in Limerick and other places, and six months notice to England to quit was given. All accounts concur that the position of things is alarming. Government has directed letters in the Dublin post office to be opened.

FUNERAL OF MAJOR VINTON.—Tuesday, May 11th, has been fixed upon by the committee for the funeral solemnities of the late Major Vinton in Providence.

Col. Charles S. Todd, late Minister to Russia, is engaged in preparing a History, Civil and Military, of the valley of the Ohio, including an account of the late war in the Western Country, and also of the war with Mexico, in which the troops from the Ohio valley participated. Col. T. was an officer during the late war, and was at one period Inspector General of the U. S. Army.

The Post Office Department at Vera Cruz being now conducted by the Mexican Postmaster, under the Mexican laws on postage, the attention of persons in the United States corresponding with the army or navy, is urgently called to the necessity of having their letters properly directed, specifying the corps or department to which their correspondents belong.

The annual election, in this State, is one week from to-morrow, when the Legislature will meet, and the officers elect will be sworn in.

House.—Mr. Palfrey moved a select Committee to inquire into the recent riots in Washington and to report what action the House would take to secure its members from personal threats.

This motion, raised a stormy debate, which lasted for the whole session. No business was transacted.

THE DEATH OF JAMES ERWIN.—We announced some days since, the sad death of James Erwin, Jr., a grandson of the Hon. Henry Clay, at New Orleans, which was supposed to have been a suicide. A letter, however, from New Orleans, to his relatives in Lexington, Ky., states that there is no doubt that it resulted entirely from accident, as he had just retired to his room in excellent health and spirits, and from the position in which he was found, it was evident that he was in the act of placing a pistol under his pillow when the accidental explosion took place.

A long Train.—A merchandise train of 113 cars, came down over the Northern Railroad on Monday last, fifty of them loaded with splendid and valuable mahogany from the Shaker settlement at Enfield. Some of the masts were over one hundred feet in length. On the Saturday preceding a considerable amount of the same lumber went down, the freight upon which we are told was nearly five hundred dollars.—Concord Democrat.
